

An Invitation from Alberta Ingenuity Centre for Machine Learning

Advancing the World of Machine Learning

In the presence of:

Dr. Andrew Greenshaw, Associate Vice-President (Research), University of Alberta

Dr. Gregory Taylor, Dean of the Faculty of Science, University of Alberta

Alberta Ingenuity Centre for Machine Learning (AICML)
Cordially invites you to participate in the:

**Official launch of Phase Two of AICML
Introduction of Myriad Machine Learning, Inc.
Demonstration of AICML technology**

Thursday, October 22, 2009

9:45 - 11:30 a.m.

Atrium Hall, 2nd Floor, Computer Science Building
University of Alberta

Please RSVP to:

Leslie Acker

E-mail: leslie.acker@ualberta.ca

Phone: 780-492-4828

For more information about AICML visit <http://www.aicml.ca>

LIVE MACHINE LEARNING DEMONSTRATIONS:

Critterbot - New ML platform for mobile robot learning & exploration
Meerkat - Social network analysis (bovine/human behavior)
Second Look - Machine Learning assisted breast cancer detection
BioBank - High throughput bio-sample storage and tracking system
BTAP - Brain Tumour Analyses Project (predicting brain tumour growth)
ML Cancer Research - Colon cancer analysis using microarray data
Dynamic Mobile Imaging - Calgary Scientific Inc (iPhone application)

Government
of Alberta
